THE FALL RIVER COTTON CENTENNIAL CARNIVAL

during the week of June 19—24 commemorated the **one hundredth anniversary** of **Cotton Manufacturing** in **Fall River,** and incidentally called attention to the fact that a period of about **one hundred years** represents the development of cotton manufacturing in the United States.

During the week business was generally suspended. The display of products of Fall River industries at the State Armory drew a crowd. Among the prominent exhibits was that of the American Linen Company where were seen side by side a hand loom of greater age than the city of Fall River and a Northrop Automatic loom, showing by contrast a century of Progress in the Weave Room. A comparison of our Cotton Chats heading with illustrations of weave rooms of the Richard Borden Mfg. Co., Davol Mills and Bourne Mills still farther emphasizes the importance of this progress.
